

A Quick & Easy Solution For Mounting Your Weld or Assembly Fixtures.

Benefits:

- Decreased Welder Fatigue
- Increased Productivity
- Improved Weld Access
- Improved Weld Quality
- Weld Cell Flexibility

FEATURES:

Portability - Casters allow for easy movement over most shop floor obstacles and both head and tailstock can be moved to position independently.

Safety - Positive locking system on headstock (tailstock Optional) prevents accidental or unwanted rotation.

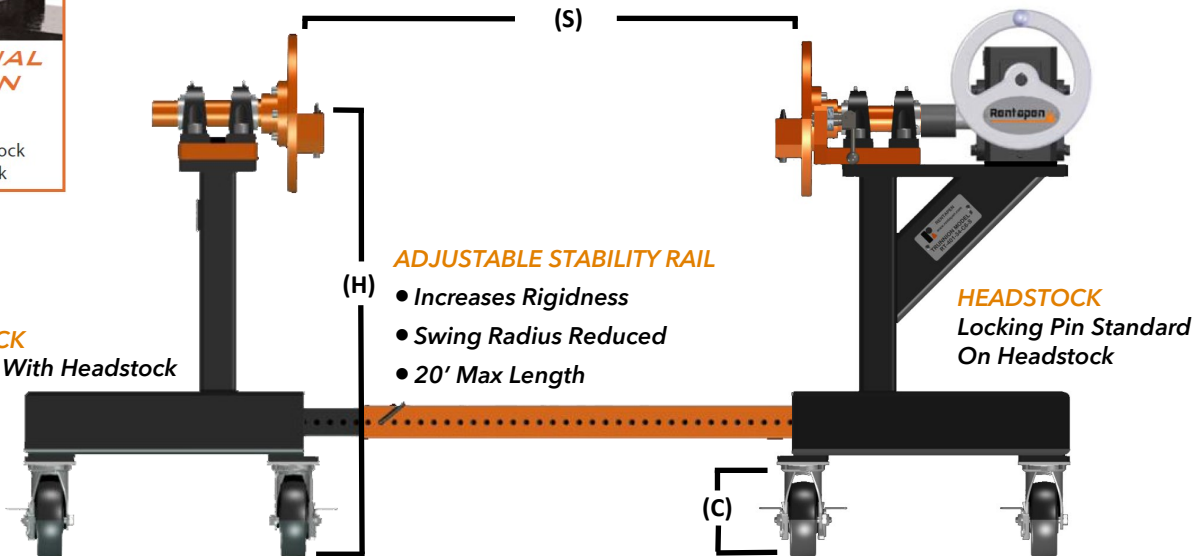

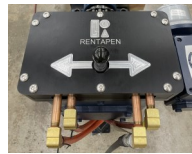

Convenience - 360° rotation allows for optimum part orientation. Double sided gearbox allows for reposition of hand crank.

Reliability - Industrial quality gearbox, heavy duty bearings and casters for years of service.

Customizable - Choose from several available gear ratios, heights, caster sizes, & locking positions. Pneumatic and hydraulic motor options are available on request.

Feel free to supply your own custom mounting or design drawings too!

Fill or write in your choices to request a quote.
