

RAPID TRUNNIONS

***Adjustable
Height***

***A Quick & Easy Solution For Mounting
Your Weld or Assembly Fixtures.***

FEATURES:

Portability - Casters allow for easy movement over most shop floor obstacles and both head and tailstock can be moved to position independently.

Safety - Positive locking system on headstock (tailstock Optional) prevents accidental or unwanted rotation.

Customizable - Choose from several available gear ratios, heights, caster sizes, and locking positions. Even supply drawings for your own custom mounting or designs. Pneumatic and hydraulic motor options available on request.

BENEFITS:

- ***Adjustable Heights***
- ***Decreased Welder Fatigue***
- ***Increased Productivity***
- ***Improved Weld Access***
- ***Improved Weld Quality***
- ***Weld Cell Flexibility***

**MADE IN
THE USA**

Convenience - 360° rotation allows for optimum part orientation. Double sided gearbox allows for reposition of hand crank.

Reliability - Industrial quality gearbox, heavy duty bearings and casters for years of service.

RAPID TRUNNIONS

How To Order

50:1 Gear Ratio

27"- 39" Tall

6" Casters

No Lock On Tailstock

Manual Crank

No Stability Bar

Example Part Number
RT501-27-39-C6-N-M-N

Rotational lock pin

- 8 positions
- 45 degree increments
- Standard on Headstock
- Optional on Tailstock
